College Chapel

Assumption College

Sandwich, Ontario

The building, which up to 1875, had been large enough to supply the needs of the Catholics of Western Ontario for higher education, was erected at Sandwich by the Jesuit Fathers. Here in 1855, those world-famous educators of Catholic youth erected the original building of the regular college group, and opened classes in order to give a religious and classical training to the young men of the district and surrounding country. Before two full years had elapsed, however, these zealous instructors had been called away to other more pressing work. The college, during the next decade, passed successively through the hands of the Benedictines, of the Basilians, and of the late Theodule Girardot, who afterwards filled the position of the Inspector of Public Schools in the County of Essex. In 1870, the late Dr. Walsh, then Bishop of London, seeing the need of establishing the College on a more permanent basis, called upon the Priests of St. Basil to take charge once more of Assumption College. The prospects of success, he felt, were now brighter; the Catholics of the neighborhood were prosperous; and, this together with the proximity of the fast growing metropolis of the great State of Michigan, just across the border, promised a large field of usefulness to the College.

Father Dennis O'Connor, later Bishop of London, and Archbishop of Toronto, where he died on June 30th, 1911, headed the little band that came to take charge of Assumption College in September, 1870. That the choice of Superior was a wise one is evidenced by the splendid success with which the College was conducted under the new regime. Himself a trained scholar, a born teacher, and typical disciplinarian, Father O'Connor possessed the happy faculty of infusing part

of his own energy and resistless perseverance into the hearts of the small staff of professors that shared his labors; and thus the College grew and prospered. Owing to the ever increasing attendance of students from both Ontario and the adjacent States, it was found necessary in 1875 to add to the College buildings, and still again in 1883. Since then several additions have been erected. The year 1908 witnessed the completion of a beautiful Alumni Chapel, which was dedicated with impressive ceremony by the Rt. Rev. J. Edward Meunier, Administrator of the Diocese of London, on June 16th. Two additional buildings, a gymnasium and a private room building, the corner stones of which were laid by Rt. Rev. M. F. Fallon, D. D., Bishop of London, on St. Basil's Day, 1915, were opened that fall. The College now has ample accommodation for three hundred boarders.

Realizing the increasing importance of securing for Catholic Education standing before the state, the authorities of the College in 1920 affiliated it to Western University, London, Ont. Students may now secure from Assumption a University degree while at the same time enjoying all the safeguards and other advantages of Catholic education. The College offers a pre-medical and a pre-law course of two years which meets the requirements of Universities, both in Ontario and Michigan. The impetus for good given the College by its first President after the Basilians had assumed permanent charge still continues to keep it abreast of the times, and true to its principles of training youth in "Virtue and Discipline and Knowledge."

The situation of the College on the south bank of the Detroit River, the salubrious climate of extreme Western Ontario, the excellent system of instruction in both the Classical and Commercial Courses, make Assumption College a most desirable residential school for young men and boys.

General Conspectus of Studies.

The College, in carrying out its idea of Education, aims at forming the whole man — the moral, intellectual, and the physical. It teaches science and discipline, trains the higher faculties of the soul, and makes right living the great end to be obtained.

Religion and science go hand in hand throughout the course, and these, aided by a discipline, mild, yet firm, furnish the only certain way to turn out men of a Christian character, of learning and of self-control. This is our hope, that the students who pass through our hands will make good priests in the Church, or worthy laymen, able to hold their own in whatever walk of life their lot may be cast.

THE PREPARATORY SCHOOL

The Preparatory School is designed for young boys, to prepare them for entrance in the High School or the Commercial Course. To enter the Preparatory School boys must have attained Junior Fourth Class standing in the Canadian system, or have reached Seventh Grade in the school system of the United States. When the work of the Senior Fourth or Eighth Grade has been completed students are admitted to the High School or Commercial Course, according as they intend to study for one of the liberal professions or fit themselves for business.

THE COMMERCIAL COURSE

The Commercial Course prepares the student for a business career. The course in the College can be completed in one year. For some students, however, an additional year is necessary to secure a diploma. The object of the course is to make the student familiar with the theory and practice of business transactions to give him a clear insight into com-

mercial relations, and to form his judgment. The subjects taught in the Commercial Department are the same as are found in the curricula of the best business colleges, to which is added a thorough course in Christian Doctrine. Business and Shorthand and Typewriting diplomas are awarded to students who pass with honor the examinations set at the end of the course.

THE HIGH SCHOOL COURSE

The High School Course embraces four years work, though a good student can by faithful application cover the prescribed matter in three years. The subjects taught are: Christian Doctrine, Latin, Greek, French, German, English, Spanish History, Mathematics, and Science. The course is designed to qualify the student for admission to the College Course and for matriculation into any Canadian or American University.

THE COLLEGE COURSE

For admission to the College Course students must have completed the College High School Course or have passed Junior Matriculation if they come from Canadian High Schools or Collegiate Institutes, or have graduated from a High School having a four year course if they come from an American school.

This course covers a period of four years. On graduating students receive the Bachelor of Arts degree from Western University, to which Assumption College is affiliated. The first two years of this course is equivalent to the Pre-Medical and Pre-Law courses of American Universities.

RELIGIOUS INSTRUCTION

A Catholic College, as such, can have no other reason for its existence than the necessity which is felt to exist of teaching religion. Education without religion is a misnomer, which may produce learned infidels, but leaves the individual without any object in life beyond the desire of acquiring the mere material goods bestowed by the world on its votaries. Hence,

as religion is the reason of our existence, religious instruction is given in all the years. From the elementary truths taught in Preparatory School, the student is lead through a well graded course of Christian Doctrine, Church History and Scripture, during which he not only learns to give a reason for the faith that is in him, but breathes an atmosphere of Catholicity, that gives tone to his whole after life, and makes him a true son of the Church, whether he serves her in the world or in the sanctuary.

PHILOSOPHY

The Classical Course finds its natural complement and perfection in the study of Philosophy, the foundation of all science and the handmaid of Theology. The Philosophy taught in the College is the Philosophy of St. Thomas, which combines the best of ancient thought with the teachings of the great exponents of Catholic doctrine, and which is warmly recommended by our late Holy Father, Pope XIII., in his Encyclical Letter "*Æterni Patris*," of the fourth of August, eighteen hundred and seventy-nine. The course embraces Logic, Mental Philosophy, Ethics and History of Philosophy. In addition to these subjects, students in Philosophy are required to pursue their studies in Latin, English, French or German, Scripture, Church History and Christian Doctrine. In all these subjects they have access to numerous books of reference. They are members of a Literary Association and of a Dramatic Club, in which they have excellent opportunities of improving themselves in English Literature and Elocution. They are provided with rooms and have the advantage of a special rule. The grade is that of the second, third and fourth years in the Arts' Course.

CLASSICS

For many hundred years the Classics have been reputed the best instrument of mental training. The study of them is fitly called a liberal education, because it emancipates the mind and is the apprenticeship everyone must serve before

becoming a "free brother of the guild which passes the torch of life from age to age." Notwithstanding the views latterly advanced as to their utility, we still believe that no discipline is more useful where the aim is to impart broad culture with accuracy in scholarship. The master minds in Church and State, trained in this gymnasium, are guarantee sufficient that we do right in giving much time to the study of the Classics, and in teaching them in such a way that the student can not only translate but read them, that is to say, take into his own mind the thoughts and ideas of the author, without a conscious appeal to the vernacular equivalent.

ENGLISH

While the value of Classics as an educator is recognized in the High School and College Courses, the importance of English is not overlooked. English is the language of the United States and the greater portion of Canada. Students must be trained to speak and write it well. A glance at the curriculum will show that the faculty recognizes the necessity of the most careful training in English. In the High School Department the course is that prescribed by the Department of Education of Ontario for Collegiate Institutes and High Schools. The course in the College Department corresponds with that prescribed for students in our Universities.

HISTORY

The poet says that "the noblest study of mankind is man." If we except a man's Creator, the poet speaks true. History furnishes a knowledge of men, of the great men of the world and of their deeds; and hence History claims a place in every school curriculum. The college graduate should have an intimate knowledge of the history of his country and a good acquaintance with ancient and modern history in general, and every Catholic college graduate should have a thorough knowledge of the history of the grand old Church to which he belongs. Such knowledge the course in history, profane and ecclesiastical, aims to give.

MODERN LANGUAGES

The knowledge of some modern language other than one's own is becoming more and more necessary every day, especially in a country which represents many nationalities. It is valuable to the business man, invaluable to the scholar, and necessary to the priest. The scholar can not ignore the literatures of languages, closely related to his own; and the priest, who, by the nature of his calling, comes into contact with people of different tongues, to whom he must dispense the bread of doctrine and the consolations of Holy Church, is frequently made to realize his limitations, if English is his only tongue. Realizing this fact and knowing that many of our students come from localities in which the knowledge of French, German and Spanish is necessary, or useful, the study of these languages is made part of the course in the High School and College Departments. The study of French, German and Spanish is begun in the first year of the High School Course. Every student must take one or other language through the High School and the College Courses. These languages, of course, are taught without extra charges and the facilities afforded to students to master them are unsurpassed.

MATHEMATICS

The study of Mathematics is in itself an education. It is one of the most powerful factors in forming the judgment, and helps to develop the reasoning powers, probably, to a greater extent than does any other study. Hence, it has an importance in any scheme of education that can not be neglected, and can hardly be over estimated. Knowing this, we have made our Courses in Algebra, Geometry and Trigonometry very complete.

NATURAL SCIENCE.

Present day needs demand that every secondary school give a good training in Natural Science—Physics, Chemistry and Biology. The College claims to give such training. Its laboratories are amply furnished and each student performs

experiments under the supervision of the instructor. In the High School, the work in Physics and Chemistry prepares the student for matriculation. To College Students a two-years pre-medical course is offered when the number of applicants is sufficiently large. This course is that demanded by the pre-medical examinations. It includes the principles of Botany, Zoology, General and Organic Chemistry, and qualitative analysis, with the experimental work required.

MUSIC

Individual lessons are given in pianoforte, singing, violin, mandolin and other stringed instruments. Opportunities are offered for the practice of ensemble playing. Once a week a class is held for the special study of Liturgical Chant. Occasionally entertainments are prepared, in which pupils that are sufficiently advanced, are requested to take part. A Glee Club is maintained in the College for the special practice of part singing, and all the pupils gifted with sufficient voice and musical temperament may become members of it.

STUDENT SOCIETIES

Various societies and associations have been organized for the promotion of religion, sociability, and literary activity. The Sodalities have a chapel, in which a devotional meeting is held once a week, consisting of a short instruction, chanting office, singing of hymns, and Holy Mass. The literary societies hold bi-weekly reunions for the reading of essays, debates, etc. A well-equipped reading room is opened to the students every evening and on the afternoons of holidays.

II.

Discipline.

Any system of education which trains the intellect without developing the moral side of character, falls short of its purpose; for education must make the student not only a scholar, but especially a man of rule and good manners. Hence it is that order and regularity, promoted by a firm and wise discipline, are indispensable in a college. They are indispensable in the study-hall, in the class-room, and in the play-ground; in the study-hall, where solid work is not possible without quiet and silence; in the class-room, where the success of both teachers and pupils depends in a large measure upon the discipline that reigns there; and in the play-ground, where the boys are expected to be upright and gentlemanly in behavior. Therefore, the following regulations are enforced at the College:

No student may leave the College grounds without permission. Permission to visit the city on business may be obtained. It is conditional, however, on good work and good conduct.

Absence from the College during the term will not be allowed except in case of serious illness of the student or a member of his family at home, or for some equally grave reason.

Permission to remain away from the College over night during the term will not be granted except for urgent reasons.

Wednesday, Saturday and Sunday afternoons, between 2 and 5 o'clock, are visiting days. Parents and other visitors are requested to bear this in mind.

The students are strictly forbidden to lend or borrow money or to sell or exchange personal effects of any kind.

Any damage done by a student to the furniture, instruments or books of the College will be charged to his account.

Students are expected to report any injury or destruction of school property.

The correspondence of the students is subject to the supervision of the President or Secretary.

Day scholars are not allowed to take out letters or to perform errands of any kind for the boarders.

Obstinate disobedience, incorrigible sloth, the use of intoxicating liquors, introducing into the house or reading books of an irreligious or immoral character, leaving the College grounds without permission after six o'clock p. m.,

are faults too grievous to be punished and for which the student shall be expelled from the College; if for any reason whatever the College authorities decide at any time that a student is undesirable, they reserve the right to request that he be taken home.

ADMISSION

Boys below Junior Fourth standing in Canadian Schools, and Seventh Grade in American Schools, are not eligible.

Every candidate for admission shall present a certificate of good moral character from his pastor. He must also bring a letter of honorable dismissal and class standing from the Principal of the school last attended.

Students may enter at any time during the school year before Easter.

Students should be present on the afternoon of the day when school opens in September, and of the day on which work is resumed after the Christmas recess.

The College furnishes bedding and table linen. Each student provides for himself towels, bathrobe and bedroom slippers. The other clothing is practically the same as one would have at home.

EXAMINATIONS AND REPORTS

There are two written examinations in the year; the first immediately before the Christmas holidays, and the final before the close of the academic year.

The classes of new students are determined by examination at the time of entrance.

Students are promoted in course at the beginning of each scholastic year in September, if they have attained the required standard in the class-work, and the examinations of the preceding year.

At the examination the standard is as follows: (1) for pass, fifty per cent. of the marks assigned to each paper; (2) for second-class honors, sixty per cent. of the total marks for all papers; and (3) for first-class honors, seventy-five per cent. of the total marks for all the papers.

Students who fail in any subject at the examination are required to pass a supplementary examination in that subject before being admitted to the work of the ensuing term.

Failure in any two subjects at the final examination involves the loss of the year.

Official bi-monthly reports of each student's progress and deportment and class standing will be sent to the parents or guardians. These reports also give information of the marks obtained at the examinations.

Expenses and Fees.

III.

Physical Culture.

The Basilians have ever recognized the necessity of training the whole man; so while they have provided for the moral and the intellectual well-being of their pupils, as may be seen from the curriculum of studies, they have not been unmindful of the physical culture of the students. Although games and amusements are never allowed to encroach upon the more serious work of college life, yet a campus of ten acres affords ample opportunity for out-door sports. Recently the College authorities erected three excellent hand-ball courts and a very fine gymnasium. A skating and hockey rink is maintained during the winter months. Between foot-ball, base-ball, basketball, hand-ball and gymnastic exercises under the guidance of an able director, every reasonable provision is made for the physical development of the students.

The supervision of all athletic matters has been entrusted to an Athletic Board, consisting of three members, elected by the students and one appointed by the faculty.

III.

Commercial Course.

For admission to the Commercial Course the student must have at least High School Entrance or ninth grade standing. We say at least ninth grade standing, for it is very desirable that a student of business should first take two years or more in the High School Course. The fact is coming home more and more every day to business men, that the successful man has to know many things besides the mere routine of business transactions. He must be able to grasp the problems involved in capital and labor, in supply and demand; he must have a comprehensive idea of trade relations, of commerce, both domestic and foreign, and be able to express his views forcibly; so that a commercial education is a very complete education, and needs a training not much inferior to that required for a study of the liberal professions. In fact, now-a-days, commerce is a profession. It requires more than a knowledge of bookkeeping, typewriting, or stenography. These are but small, though an essential part of a commercial education, since the business man can always engage others to do his clerical work and yet requires the knowledge to correct and audit. Therefore the College advises parents and students to aim at a solid practical literary education in the first place, whenever possible.

The system in the Commercial Course is individual teaching, and hence the student may advance as rapidly as he chooses. The average student should complete the business course in one year. Diplomas are awarded to successful candidates in both the Business Department and the Shorthand and Typewriting Department.

Schedule.

THE BUSINESS DEPARTMENT

CATECHISM — Deharbe's Full Course of Catholic Doctrine.

SPELLING — A very complete course in this important branch.

PRACTICAL ENGLISH — Review exercises in Grammar with special attention to the correction of false syntax.

PENMANSHIP — The Palmer Method of Muscular Business Writing.

RAPID CALCULATION — A systematic course in the handling of figures; naturally promoting accuracy and speed in billing and the daily computations met with in ordinary business.

ARITHMETIC — Percentage, Simple and Compound Interest, Discount, Commission and Brokerage, Stocks and Bonds, Insurance and Taxes, Duties, Collection and Exchange, Foreign Exchange, Partial Payments, Equation of Accounts, Partnership, Bankruptcy, Storage, Cash and Daily Balances, etc.

BOOKKEEPING — A practical course in Single and Double Entry Bookkeeping, illustrating fully all the latest methods followed in the various mercantile branches. Journalizing — the important groundwork of all business records — is thoroughly taught from the beginning, and thereafter the student is enabled to follow easily the various books so necessary to the up-to-date methods of recording business transactions.

BOOKKEEPING AND BUSINESS PRACTICE — "Learning by Doing." This practical course in the handling of the books and accounts of Wholesale and Retail Business, shipments and Consignments, Single Ownerships, Partnership, Joint Stock Companies and Joint Accounts. An interesting and useful practice in the handling of money, notes, drafts, checks, receipts, orders, mortgages, leases, deeds, Articles of Co-Partnership, Power of Attorney, etc.

A special set in Farm Bookkeeping.
Systems.

Also Loose-Leaf Ledger, Card Index, and Ledgerette

COMMERCIAL LAW — Contracts, Negotiable Instruments, Personal and Real Estate Sales, Guaranty and Suretyship, Agency Partnerships and Corporations, Banks and Banking Laws, Insurance, Landlord and Tenant, Interest and Usury, Mortgages, Wills, Patents, Copyright, etc.

BUSINESS LETTER WRITING — All correspondence connected with the Mercantile Office. Thoroughly illustrating the use of various appliances found in the up-to-date office; Follow-up System; Vertical Filing; Letter-Copying; Billing; Circulars and Advertising, etc.

SHORTHAND AND TYPEWRITING DEPARTMENT.

CATECHISM — Deharbe's Full Course of Catholic Doctrine.

SPELLING — A very complete course in this important branch.

PRACTICAL ENGLISH — Review exercises in Grammar with special attention to the correction of false syntax.

PENMANSHIP — The Palmer Method of Muscular Movement Business Writing.

RAPID CALCULATION — A systematic course in the handling of figures.

BUSINESS FORMS — Theoretical and practical knowledge of various business papers, notes, drafts, checks, mortgages, leases, deeds, receipts, orders, etc.

BUSINESS LETTER WRITING — All correspondence connected with the Mercantile Office. Thoroughly illustrating the use of appliances found in the up-to-date office; Follow-up Systems; Vertical Filing; Letter-Copying; Billing; Circulars and Prospectuses, and Advertising.

SHORTHAND — The Isaac Pitman Short Course — A thorough mastery of simple theory, and sentence-writing from the beginning. Ample practice and daily dictation enable the student to acquire a high degree of speed in verbatim reporting.

TYPEWRITING — In this department the UNDERWOOD typewriter is used. The system is the well-known Smith Touch Typewriting. By this system the student acquires the highest degree of speed and the minutest accuracy. The course includes the making of transcripts from shorthand notes; writing from dictation, letter writing; carbon copying; billing and tabulating; abstract writing; and all business forms.

SHORTHAND

Young men entering our Shorthand and Typewriting Department will find therein every facility for acquiring the best in these useful arts. The system of Shorthand taught is the Isaac Pitman, highly recommended as the best of all systems for the absolute legibility and scientific adjustment of all its parts, as well as for its superiority at the highest speeds.

Forty Lessons complete the Course — lessons which are easily mastered. This Text is in general use throughout the High Schools and leading Business Colleges of Canada and the United States, and has been officially adopted for the High Schools of New York, Brooklyn, and other large cities.

Special features of this work are:

Position Writing from the beginning.

Words and Sentences introduced in the First Lesson.

Business Letters in the Ninth and subsequent Lessons.

Phraseology taught from the Fifth Lesson.

Reporting Style from the Beginning.

Our Stenographic Department affords a complete Course in Office Routine. It gives to the shorthand pupil practice in envelope addressing, letter writing, invoicing, rendering accounts, letter-copying, shipping by freight and express, manifolding, mimeographing, filing correspondence, and all other lines of Office Work. It familiarizes the student with business expressions and terms, business papers and office stationery. It gives to the young stenographer explicit instruction in regard to the duties which will be required of him upon accepting a position. It provides for the Shorthand student while at school exactly the kind of work which he will meet with in a business office.

TYPEWRITING

The Scientific Method of Mastering the Keyboard of the Typewriter is by the Sense of Touch.

The design of the text book in use is to teach typewriting in such a way that the student will have an absolute command of every key on the keyboard, and be able to strike any key more readily without looking than would be the case with the aid of sight — a very valuable asset for the business amanuensis and typist. The course contains every specimen of actual Business Letters, Legal Forms, Specifications, Instructions for the use of the Tabulator, etc., all printed in actual typewriter style.

With the aid of this book we find our students can produce the best results in the shortest time.

Our Typewriting Department is complete in every respect. Therein the student will find all that will enable him to become an efficient typist. Every facility is afforded him to make the acquaintance of the best that inventive genius has achieved in the evolution of the up-to-date Typewriter.

This department is equipped throughout with the latest models of the ever-popular Underwood Typewriter.

Our Business Department throughout is built up along the lines of the most up-to-date systems of Business Training. All subjects are treated from a practical standpoint, and young men entering the various courses are assured the greatest amount of progress with the least amount of resistance. The text books in use are those recognized as best by Business Colleges, Academies and High Schools in Canada and the United States. From the Office Practices in use our students can easily graduate into any office in the Business World. The methods employed are the "Learn by Doing" methods so much in vogue to-day.

IV.

Preparatory School.

The desire to meet a popular demand has led to the establishment of a preparatory course in the College; it is known as the Preparatory School, and is intended for boys usually under the age of fourteen years. Instruction in the elementary branches of an English education is here imparted, and scrupulous attention paid to the bringing up of the little fellows. They have their own playground, study-hall and dormitories. During the hours of recreation, as well as in the school rooms, they are always under supervision. The discipline is mild and recourse is seldom had to punishment, those in charge endeavoring to govern by kindness, and by appealing to the little boys' sense of honor. Neatness, diligence, and piety are particularly inculcated. By way of encouragement, the best behaved are admitted to membership in a religious society called the Guardian Angels of the Sanctuary; whilst the names of all whose conduct and application are satisfactory, appear in the College catalogue under the heading of Roll of Honor.

For admission to the Preparatory School pupils must have passed into Junior Fourth in the Ontario School System, or have attained Seventh Grade standing in the American schools.
